

2014 RETAIL ORDER FORM

The XR-2001 is a Deep-V-Pad custom Race Boat built with a composite blend of high performance, vinylester marine resin, NPG gelcoat, Bi-axial fiberglass, Kevlar, high density PVC foam coring, and "light-ply" plywood. All models have an exclusive structural aluminum reinforced PVC cored transom with 6 stainless studs mounting a black powder coated aluminum jack plate to suit each individual set-up. Race models come with aircraft-cable racing steering with an aluminum sport wheel and two trim switches. A racing bucket seat and an Allison "hot-foot" throttle are also standard.

The Drag Racer is a 470-490 pound, single cockpit race boat that is built for smooth water conditions only. It comes with one racing bucket seat, a front cowl, and a low profile Rear Cowl. The River Racer is a reinforced tandem two-seater, built for moderately choppy conditions and weighs approximately 100 pounds more. It has an adjustable driver bucket seat with a passenger bucket seat mounted in tandem. The River Racer has a detachable engine-fairing. Both models are 20 ft.-1 inch long and 84" beam.

All race boats are solid white gel-coat with decal pin stripes. All colors, trim, and schemes are optional.

- XR-2001—DRAG RACER • Custom Channel - Single Axle Trailer \$27,500
- XR-2001—RIVER RACER • Custom Channel - Single Axle Trailer 28,500

LIGHT-WEIGHT CARBON FIBER/ KEVLAR/ EPOXY RACE BOATS ARE AVAILABLE  
(Reduces hull weight approximately 80-90 pounds)
